ALL TIMES EASTERN

12:30 – 1:45 PM

LIVE SESSION

PLENARY 1

LIVE Q&A

SYNCing Syndemic Approaches Across Government Agencies

This session will explore how government agencies collaborate and innovate to address the epidemics of HIV, STIs, viral hepatitis, COVID-19, MPXV, and substance use disorders. Adapting to the ever-changing landscape has created barriers and sparked innovation within agencies, programs, and the public health workforce. Government agencies are forced to adapt in order to effectively address the priorities of emerging viruses, new epidemiology data, and health access disparities. The session focuses on how government agencies are taking a syndemic approach, and highlights how synchronizing strategies can impact epidemics and pandemics.

LEARNING OBJECTIVES

- ▶ Describe how federal agencies are implementing a syndemic approach to addressing epidemics of HIV, STIs, viral hepatitis, COVID-19, MPXV, and substance use disorders.
- ▶ Identify ways in which federal health agencies are employing innovative solutions-focused approaches across the epidemics of HIV, viral Hepatitis, STIs, and opioids.
- ▶ Explain the effect of mitigating the impact that COVID-19 has had on community health services and health equity.

SPEAKERS

Marissa Tonelli, HealthHIV

Dr. Jonathan Mermin, National Center for HIV, Viral Hepatitis, STD, and TB Prevention, Centers for Disease Control and Prevention, and Incident Manager, Mpox Response

Dr. Leandro Mena, Division of STD Prevention, CDC National Center for HIV, Viral Hepatitis, STD, and TB Prevention

Dr. Laura Cheever, HIV/AIDS Bureau (HAB), Health Resources and Services Administration, U.S. Department of Health and Human Services

Ernia Hughes, Office of Health Center Investment Oversight, Health Resources and Services Administration

1:45 – 2:15 PM

Break / View Posters

SYNC 2022's virtual poster hall features presentation abstracts on the topics of HIV Prevention, Care, and Treatment; Hepatitis C; COVID-19; Harm Reduction; MSM of Color Health; Equity and Inclusion; LGBTQ Health; Women's Health; and intersectional public health topics. See page 15 for a full listing.

LIVE SESSION

LIVE Q&A

PLENARY 2

SYNCing Community Voices and Multi-Dimensional Responses to Competing and Complex Epidemics

This plenary brings together various community-based organizations from across the country to discuss how new responses are needed in the “new world” we live in. This “new world” has impacted various populations such as Black women, members of the Latinx community, gay and bisexual men, and Transgender persons and how new responses are needed.

LEARNING OBJECTIVES

- ▶ Describe the impact of living in a syndemic environment among various populations
- ▶ Describe how organizations have pivoted to meet the needs of clients in a syndemic environment.
- ▶ Describe the current landscape of programming that integrates multiple responses in a syndemic environment.
- ▶ Identify national and local prevention activities.
- ▶ Describe best practices that address programming in a hybrid environment.

SPEAKERS

Ken Pettigrew, HealthHIV

Tori Cooper, Human Rights Campaign

Manuel Diaz-Ramirez, La Clinica Del Pueblo

Antonio Driver, Speakout USA

Amber Tejada, Hepatitis Education Project

Dr. Mauda Monger, My Brother’s Keeper

VISIT TRAINING

Self-Paced, On Demand Trainings

HIV PREVENTION CERTIFIED PROVIDER™ CERTIFICATION PROGRAM (HIVPCP)

The HealthHIV HIV Prevention Certified Provider™ Certification Program is an online, self-paced CME accredited certification program composed of eight modules in HIV prevention detailing the pertinent clinical and practice information that clinicians need to effectively employ HIV prevention interventions.

VISIT TRAINING

PREP NAVIGATION TRAINING: PLEASEPREPME.ORG

PrEP access can be challenging for PrEP seekers and navigation staff alike. At PleasePrEPMe, we hear lots of questions about paying for PrEP, finding a sex-positive prescriber, and other essentials of supportive PrEP services. In response, we designed “Helping People Access PrEP” as a free, self-directed, online training to help answer these and many other questions. It is based on our free PrEP navigation manual.

VISIT TRAINING

OPIOID EDUCATION AND TRAINING: HEALTHHIV OPIOID LEARNING INSTITUTE

The HealthHIV Opioid Learning, led by HealthHIV, is a comprehensive educational initiative with a mission to educate prescribers and other health care professionals on safe and effective opioid prescribing practices. The self-paced CME/CE accredited curriculum covers topics related to evidence-based opioid use treatment options, safe opioid prescribing, reduction of risks of opioid misuse, effective communication strategies with patients about opioid misuse, and overdose prevention.

**We gather and share
what works to improve
services and care for
people with HIV**

ALL TIMES EASTERN

12:00 – 1:30 PM

LIVE SESSION

LIVE Q&A

PLENARY 3

SYNCing on a National PrEP Program through Community Advocacy and Innovation

Leveraging and aligning community involvement as a way to drive collaborative public health responses is vital to meaningfully address social determinants of health. And while today's breakthroughs in several arenas have improved health care delivery and patient outcomes for many, we need community advocacy to capitalize on the science that sustains our health, including HIV prevention science. This session takes a critical look at innovative ways communities act as public health force-multipliers, through the creation of and advocacy for a National Pre-Exposure Prophylaxis (PrEP) Program that would increase equity and accessibility to this revolutionary HIV prevention tool.

LEARNING OBJECTIVES

- ▶ Identify the key components of a national PrEP program
- ▶ Understand the impact of HIV prevention efforts for the black community
- ▶ Understand the federal policies impacting PrEP access, including medication and lab coverage
- ▶ Understand systems that work for undocumented community members
- ▶ Identify ways to center equity in the design, implementation, and evaluation of a national PrEP program

SPEAKERS

Brian Hujdich, HealthHIV

Jeremiah Johnson, PrEP4All

Amy Killelea, Killelea Consulting

Michael Chancley, PrEP4All

Guillermo Chacon, Latino Commission on AIDS

Raniyah Copeland, Equity & Impact Solutions

Pharmacy PrEP Education

A "HOW TO" SERIES
SPANNING POLICY TO PRACTICE

Health
HIV

INTEGRITAS[™]
COMMUNICATIONS

Are you seeking specific insights and suggestions as you implement postexposure prophylaxis (PEP) and preexposure prophylaxis (PrEP) in your pharmacy practice? In December 2021, the Centers for Disease Control and Prevention (CDC) released the 2021 Updated PrEP Clinical Practice Guidelines, and pharmacists now need to be trained to incorporate these updated guidelines into their daily practice. These activities were developed specifically to support the needs of pharmacists to come up to speed on guidelines and protocols for implementing PrEP and PEP for HIV prevention.

Earn CPE credits from the Accreditation Council for Pharmacy Education for completing the five modules in the Pharmacy PrEP Education series.

LIVE SESSION

LIVE Q&A

PLENARY 4

SYNCing Resources and Action to Address the Socioeconomic Determinants of Syndemics and Epidemics

Research has long shown that epidemics and syndemics, including HIV, hepatitis C, sexually-transmitted infections, MPV, and COVID-19, disparately impact underserved, disenfranchised groups. These populations, which encompass racial and ethnic minorities, sexual and gender-diverse persons, substance users, and others, represent historically underserved populations. These groups often experience limited access to basic resources, including housing, food, housing, employment, and education, compounded by the stress associated with overlapping stigmas, such as racism, HIV stigma, and homophobia. Mitigating the impact of epidemics and syndemics requires a synchronized, syndemic approach that facilitates coordination, collaboration, investment, and innovation across local, state, and federal partners. Detailing the complex, intersectional social, political, and economic forces driving epidemics and syndemics in underserved communities is key to mitigating and ultimately eliminating them.

Speakers will describe how their agencies sync resources, including staff, funding, and knowledge, with Federal, state, and local stakeholders to address epidemics and syndemics – specifically those systemic and structural factors that undermine engagement, access, and use of clinical, behavioral, and support services. In addition, they will detail their current work to support and expand current evidence-based services and interventions that break down organizational silos and maximize impact on the social determinants of health.

LEARNING OBJECTIVES

- ▶ Discuss the disparate impact of epidemics and syndemics (notably HIV, hepatitis C, sexually-transmitted infections, MPV, COVID-19, and substance use) on underserved populations.
- ▶ Describe a synchronized syndemic approach to mitigating and ultimately eliminating syndemics and pandemics.
- ▶ Detail how organizations are syncing resources with Federal, state, and community-based partners to address the determinants of health and mitigate the impacts of syndemics and pandemics in marginalized communities.

SPEAKERS

Dr. Circe J. Gray Le Compte, HealthHIV and Columbia University/New York State Psychiatric Institute

Dr. Demetre Daskalakis, White House National Monkeypox Response Deputy Coordinator, and Division of HIV/AIDS Prevention, Centers for Disease Control and Prevention

Jo Valentine, Division of STD Prevention, Centers for Disease Control and Prevention

Daemon Donigan, Washington University in St. Louis School of Medicine, HIV Prevention Capacity Building Assistance

1:30 – 2:00 PM

Break / View Posters

2:00 – 3:30 PM

LIVE SESSION

LIVE Q&A

PLENARY 5

SYNCing Strategies for Improving Black Women's Health

In Remembrance: Panelists will open the session by recognizing and paying tribute to Janet Cleveland, Barbara Joseph, and Dawn Smith.

This session will begin by honoring three trail blazers in the HIV field. Their legacies have had a significant impact on Black women's health and lives. Black women in the U.S. are disproportionately impacted by HIV and STIs. Identifying strategies that synchronize the state of HIV prevention with tools that engage and develop skills for communities and providers will positively impact Black women's health.

LEARNING OBJECTIVES

- ▶ Explain the state of HIV prevention for Black women in the U.S.
- ▶ Identify training and educational opportunities that support Black women's health.
- ▶ Identify the barriers and approaches to increase PrEP use among Black women.

SPEAKERS

Dr. Melissa Kelley, HealthHIV

Deborah Levine, The National Black Women's HIV/AIDS Network

Capt. Robyn Neblett Fanfair, National Center for HIV, Viral Hepatitis, STD, & TB Prevention, Centers for Disease Control and Prevention

Rhondette Jones Nickson, Division of HIV Prevention, Centers for Disease Control and Prevention

Leisha McKinley-Beach, Platinum Level Production

SYNC VIRTUAL PLATFORM GUIDE

Thank you for attending SYNC 2022! Here are a few tips to make navigating the platform as seamless as possible.

[SYNC2022.vFairs.com](https://sync2022.vFairs.com)

PREFERRED BROWSER

Google Chrome is the recommended browser for this platform. Some features may not work properly if you use other browsers. You may experience user interface issues if using Safari on iPhone or iPad. A mobile app is available:

[Learn more.](#)

If you are unable to access the platform, please contact sync2022@getvfairs.io

LOGGING IN

Please **use the email address you registered** for the conference with to sign into the venue. For the password, enter your first and last name. Once in, you can update your profile, upload your picture, and take time to navigate the virtual platform.

GET SOCIAL!

Share your experience and insights from the conference using the [#SYNC2022](#) hashtag.

PROGRAM & SESSION FEATURES

FULL AGENDA

The **Agenda** tab on the top menu shows the schedule for the entire conference. All times Eastern Standard.

SESSION RESOURCES

Materials from the sessions will be available for download; click on the **Resources** tab to the right of the session video. They will also be available in the Resource Library after each session.

Q&A

Questions are welcome and encouraged! To ask a question, click on the **Q&A** tab to the right of the session video.

ON DEMAND VIDEOS AFTER THE EVENT

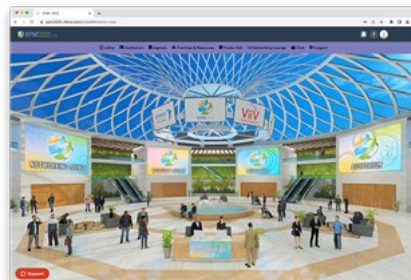

Don't worry about missing any content. Within 48 hours, all content from your educational experience will be available on the platform for future viewing.

EXPLORE THE VIRTUAL PLATFORM

ENTRANCE

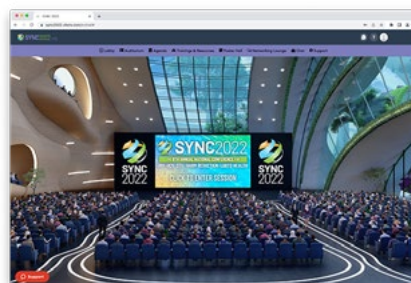

To enter the conference, click on the Welcome to SYNC Banner.

LOBBY

The Lobby contains the doors to other spaces within SYNC such as the Auditorium (where you watch sessions), the Poster Hall and

Resource Library which can all be accessed by clicking on the titles/banners above each door or on the menu bar at the top of the page. The menu bar is accessible on any page and makes it easy to navigate throughout the platform.

ACCESSING SESSIONS

To access sessions, click on the Auditorium door in the lobby or on the menu bar tab. Once in the Auditorium, click on the center

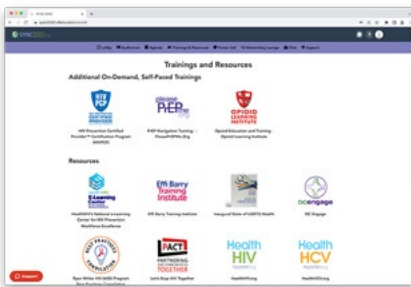

screen to access the list of sessions. If a session is open, you can click Join to participate.

POSTER HALL

Be sure to visit the Poster Hall and review the many posters submitted by your colleagues. Within the Poster Hall, you can view

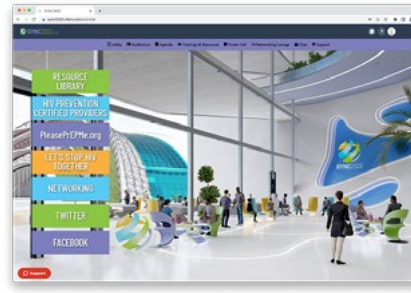

posters via PDF file, or presentation recording (if provided). You can also ask questions of the poster author(s) via text chat. A full list of posters and authors is available via the Poster Agenda, in the conference program, and on the website.

TRAININGS AND RESOURCES

Visit the Resource Library for comprehensive links to our catalog of trainings, research, and resources.

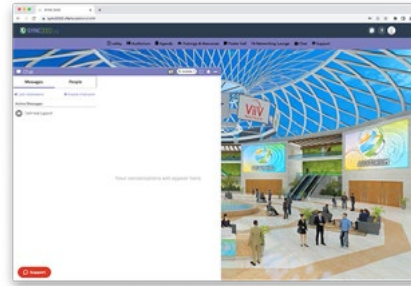

Click the Resources Library doors in the lobby, or choose Trainings & Resources from the top menu bar.

NETWORKING LOUNGE

The Networking Lounge is a great place to connect with other attendees and to access important links and resources, including

social media, all in one place. Click the Networking Lounge door in the lobby, or select the tab in the menu bar.

CONFERENCE CHAT

Access Chat on the menu bar or within the Networking Lounge by clicking on Networking.

By clicking

on the 'Chat' tab, you can interact and chat with other attendees who are online in the event, ask questions of the conference planners and/or attendees, and contact Technical Support as needed.

Using Chat, you can do the following:

- Join different chatrooms
- Initiate private chat with other attendees
- Start an audio/video call with other attendees
- Send a file attachment.

LIVE TECHNICAL SUPPORT

For Live Technical Support, click the **red button on the bottom of your screen**.

Our experts are here to help with any questions you have.

Coffee Talk Webinar Series

Optimizing HIV and HCV Treatment and Prevention Among People Experiencing Homelessness

This five-part webinar series will provide critical updates on specific recommendations for HIV and HCV treatment and prevention in PEH, including those with opioid use disorder. Recognizing that providing care for PEH presents challenging implementation hurdles, educational programming will also address system-level barriers and present real-world models with proven success.

- 1** Applying Trauma-Informed Care and Harm Reduction Principles to Optimize HIV/HCV Care for PEH
- 2** HIV and HCV Screening and Linkage to Care
- 3** HIV Treatment and Prevention Services For PEH
- 4** Use of Simplified HCV Treatment Guidelines and Minimal Monitoring Recommendations Among PEH
- 5** Retention of PEH in Comprehensive HIV and HCV Care

Free continuing education credits are available for each of the five webinars in the series.

HIV PREVENTION
**CERTIFIED
PROVIDER**[™]
CERTIFICATION PROGRAM

The **HealthHIV HIV Prevention Certified Provider[™] Certification Program** is an online, self-paced CME accredited certification program detailing the pertinent clinical and practice information that clinicians need to effectively employ HIV prevention interventions.

Upon successful completion of this no-cost program, participants earn a certification recognizing their designation as an HIV Prevention Certified Provider (HIVPCP) and receive a listing in the national online directory of HIVPCPs. The curriculum is updated annually and more frequently as needed, based on approval of new biomedical interventions and the release of evidence-based practices.

All modules are accredited and participants can earn up to 8.0 credits (CME, MOC, NCPD, CPE, and IPCE) for completion of the certification.

HIVPCPcertification.org

FAQ

ARE ANY SPECIAL TECHNOLOGIES OR EQUIPMENT NEEDED TO PARTICIPATE IN SYNC?

No. The virtual conference platform is browser-based. All you will need is a device (desktop, laptop, tablet or phone), the Chrome browser, and an internet connection. You will not have to install any software.

HOW DO I ACCESS THE CONFERENCE ONLINE?

The SYNC 2022 Virtual Platform at [SYNC2022.vFairs.com](https://sync2022.vfairs.com) is your link to all of the SYNC 2022 content. This portal gives you access to the whole SYNC experience from the plenaries and sessions, the networking lounge, resources, posters, and more. Entering the conference is easy! Just enter the email address that you used to register and get ready to SYNC!

WHAT DO I DO IF I HAVE ISSUES WITH LOGGING IN?

Email us at SYNC2022@getvFairs.io. We will have a team standing by ready to help out.

IN WHAT TIME ZONE WILL SYNC BE HELD?

The conference agenda is set for Eastern Time.

DO I NEED TO REGISTER FOR OR SELECT THE SESSIONS THAT I WANT TO ATTEND?

No. Since the conference is virtual, you do not need to register for or select ahead of time the sessions that you want to attend. You can move around from session to session within the virtual platform and you will have an opportunity to view any sessions you missed on-demand after the conference.

WHAT IF I AM NOT AVAILABLE TO PARTICIPATE IN THE ENTIRE CONFERENCE?

We hope you will be able to join us for the full dynamic conference however we understand that is not always possible with everyone's busy schedules. The good news is that all sessions will be available to registrants to watch on-demand post-conference.

WILL ATTENDEES BE ABLE TO ASK QUESTIONS OF THE SPEAKERS?

Yes. Many sessions will have a Q&A feature that will allow attendees to communicate and ask questions via a text chat message board. All tracks and institutes will be live, and the speakers will be available to answer questions throughout the entire session.

WILL I BE ABLE TO MAKE CONNECTIONS AND NETWORK WITH OTHER ATTENDEES?

Yes. Conference attendees will be able to connect with other attendees, sponsors and speakers through the chat function.

WILL CONTINUING EDUCATION CREDITS BE OFFERED?

For the latest information on available credits, visit our website at [SYNC2022.org](https://sync2022.org).

SYNChronicity is presented by

1630 Connecticut Avenue, NW • Suite 500 • Washington, DC 20009
